MIA LOPEZ

EPIC BEAKER CP BUILD LEAD | FORMER EPIC

ANURA CONNECT

San Antonio, TX (remote)

GET TO KNOW ME

Former Epic Technical Services who has spent the last seven years standardizing Beaker across multi-hospital systems. Mia got nine lab directors to agree on one build and cut 1,200 test definitions to 640 without losing a single workflow. Bilingual, calm in a steering meeting, and the person teams trust to make the hard calls on build.
